Ship Sanitation Control Certificate

[illegible]

Name and designation of issuing officer: Blunck, Port Health Inspector...Signature / seal.....Date 17 November 2025

1(a) Evidence of infection or contamination, including vectors in all stages growth; animal reservoirs for vectors; rodents or other species that could carry human disease; microbiological, chemical or other risks to human health; signs of inadequate sanitary measures.

(b) Information concerning any human cases (to be included in the Maritime Declaration of Health)

2) Results from samples taken on board. Analysis to be provided to ship's master by most expedient means and, if re-inspection is required, to the next appropriate port of call coinciding with the re-inspection date specified in this certificate

Sanitation Control Exemption Certificates and Sanitation Control Certificates are valid for a maximum of six months, but the validity period may be extended by one month if inspection cannot be carried out at the port and there is no evidence of infection or contamination.
